A GREAT MEDICAL DISCOVERY
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS
Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.
WHAT ARE THEY?

FOR FEMALE COMPLAINTS, w'ether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a Circular.

They are a gentle Purgative as well as a Tonic, possessing the peculiar merit of acting as a powerful stimulant to the Vital Organs without producing the injurious reaction of all spirituous stimulants.

THEY ARE NOT A VILE
FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

J. WALKER, Proprietor. R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal. and 32 and 34 Commerce Street, New York.

Ayer's Cathartic Pills.
FOR ALL THE PURPOSES OF A FAMILY PHYSIC.
CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentry Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most eminent clergymen, most skilful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated they are easy to take; and being purely vegetable, they are perfectly harmless.

## Colonization.

The recent numbering of the people in the older Provinces of the Dominion promises, after all, to result in some practical good. It appears to have thoroughly awakened the public mind to the necessity for a great effort to increase the population by some large colonization movement; and it is likely to create a very keen spirit of rivalry between the respective Provinces, especially between Ontario and Quebec, in the work of colonization. So far the result is good, and if the spirit and enthusiasm thus evolved can only be wisely directed into some practical channel there will be no occasion to regret the bungling census of 1871. Quebec, old, sleepy Quebec, is fairly aroused and up in arms for action. True, the Provincial Government only proposes employing twenty thousand dollars directly in this way; nor does the Executive appear to have any very clear or well defined views as to the *modus operandi*. But the country is alive and the Legislature, coming fresh from the country as it does, will doubtless impart additional earnestness and vigor to the Executive. Nor is the work to be wholly relegated to the Government. A private company has alredy been formed, and proposes to purchase three hundred and twenty thousand acres of land at the nominal price of twenty cents an acre with a view to settling sixteen hundred families from Europe thereon. There are also other associated movements with kindred objects in view, some aiming at the introduction of a large population from the recently ceded Provinces of France—Alsace and Lorraine—others contemplating the return of some ten thousand of Quebec's prodigal sons from the Western States. All these movements, taken in connection with the colonization roads and railways in the same Province, not only afford abundant evidence that Quebec is at length thoroughly aroused to the importance of the great work of filling up the waste places, but they give reasonable promise that Quebec will reap a rich harvest in due season, if she faint not. Will Ontario be behind in the noble race for population? Her past history and present vigor forbid such a conclusion. Nay, we expect to see Ontario outstrip Quebec in this laudable strife. With more revenue at her disposal, with more attractive lands available for the purpose and, perhaps, still possessing more energy and enterprise amongst the people. Ontario is likely to take the lion's share of fresh population. Amongst the various schemes propounded, the following one appears to be deserving of attention, as there is a thoroughly practical ring about it:—"Let the Government set apart 2,000,000 acres of the most fertile lands in the Province for settlement, and let them issue on the security of these lands and of the Government Sterling Debentures to the extent of £2,000,000, bearing five per cent interest, and payable in ten years. Let contracts then be entered into for clearing from 10 to 20 acres of each hundred acres of good land, and for erecting a log house and barn thereon, the whole outlay not to exceed $200 per lot. Let the lots thus cleared be sold on ten years' credit, for from $300 to $500, at a yearly charge for interest of $20, or five per cent. Let suitable roads be built out of the funds thus raised, which would render the farms immediately available. The expenditure of $5,000,000 would furnish employment for ten thousand people for nearly two years, while among those attracted to the spot every farm would find an immediate purchaser, and the cultivation of the land would soon employ as many hands as did the clearing. This would meet the immigrant just at the right time, by offering him a farm and the means of stocking it at the same time. The various appliances which could be brought into play, in the clearing of the land, and the conversion of the ashes into potash, would secure the clearing of a much larger quantity of land, than could otherwise be effected for the same money; while, as there is no doubt that before ten years every farm would be occupied by good tenants, the Government would receive $5,000,000 on account of these lands, discharging, besides, the loan." What is British Columbia going to do? Is she going to continue to stand with folded arms and look on while others work, helplessly bemoaning her remoteness from the great fountains of population? Surely not. If she is more distant from European centres of population she has close at hand ample sources from which to draw present supplies. And she has, moreover, a more tempting home to offer. The climate is better, the resources are more varied, and yield a rich reward more freely to the touch of industry; the lands are equally fertile and are much more easily subdued. In the Eastern Provinces the settlers must literally hew out a home in the forest. Every acre he must reclaim from a dense growth of trees, the stumps and roots of which remain to impede the plough for a decade at the very least. But in this Province there are still many thousands of homesteads awaiting claimants upon which there are no more trees than are proper for use, with a sufficient proportion of fertile acres ready for the plough. And, beside the reward of labor of every kind is very much greater here than on the other side of the continent. British Columbia may not be in a position just now to devote as much money towards colonization as Ontario and Quebec; but it is not necessary that she should. She needs population more than either of them; and she has greater advantages to offer than either. With a good line of steamers on between here and San Francisco; with fare from that port to this reduced one-half, and with authenticated information respecting the country, its resources and advantages, properly disseminated throughout the Pacific communities, British Columbia will get population as fast as she wants it,—quite equal to her present and prospective means of absorption. There are forty thousand British subjects on foreign soil on the Pacific slope who long to return to the old flag, and who would gladly come here and settle, did they but know upon what terms they might come.

## The Cadboro Bay Cairns.

ANANCIENT CITY OF THE DEAD!

Any one who has wandered over the spreading glades, or under the oaken bowers around Cadboro Bay, between Uplands farm and Oak Bay, (Mr Tod's), around Gonzalo's point, from Mr Tod's to Foul Bay, and around Esquimalt harbor, particularly about the Admiral's house, must have noticed numbers of conical stone piles, sometimes singly, in other places (as in the case of Cadboro Bay) in groups of two or three hundred. No person could pass those around the last mentioned place without wishing to know something of those who piled them up or for what purpose they were erected. Having seen them first in 1853 I made a resolution to open a few of them whenever I had a chance, although years should elapse. This desire I have at last been able to gratify.

As fair specimens of all I selected five from different parts of the great cluster, on the southeast side of Cadboro Bay. On looking over them, I found there were two kinds. Towards Uplands farm along the edge of the green slope are a number composed chiefly of earth and stones of various sizes. In the second place and lower down lie the bulk of them, made entirely of stones and having a little earth mixed with bits of burnt wood thrown on the flat top of them. Others with nothing but moss—the growth of ages. The first we opened was a large earthern one, twenty-five paces in circumference. I commenced by digging a trench 4 feet wide through the center of it, or rather a little to the east, as I afterwards discovered, when we had cleared the earth from the larger half, which we had to do in order clearly to understand the way in which it was constructed. I shall give a description of the first we opened, which I shall call an earth mound: On the outside is a circle of large stones set on end 5 feet apart in imitation of pillars, inside of which the earth has been dug out to the depth of one foot or down to the gravel. Two feet inside of the outer circle is an inner one, within which are piled large stones in the form of a cone, of which a large flat one formed the base. Between the inner and outer circle was a space two feet in width, along which were strewn oak and fine ashes. Beneath the inner cone was a circular hole twenty inches in depth and six feet in diameter, at the bottom of which lay the last mentioned stone. Underneath it, amongst a deposit of black earth containing a few pieces of burnt wood, lay the remains of a human being, they having been put on the gravel and the earth thrown over them; some of the bones had become slightly petrified on the one side next the sand, others showed signs of having been burned. They were lying as if they had been gathered after burning and put in the bottom of the hole in a pile in this order: First, the skull, or what was left of it after cremation, was put due south, the leg and arm bones pointing northward, while the others were piled above them. They all crumbled away when exposed to the air. Even the teeth, which were those of a grown-up person, crumbled in our hands. There was not the least trace of ornaments or utensils of any kind whatever having been put along with the dead. This cairn seemed to contain the remains of a chief. The second hole opened was smaller. It had been constructed after the same principle, with this exception: less order was observed in its construction. In this the bones were in a better state of preservation than in any of the five which I opened. The teeth were remarkably flat, smooth and round. I showed them to Dr Barnard, who kindly examined them for me. He told me, what I afterwards found to be correct, that their flatness was caused by their meeting evenly together when in the act of chewing. In this, the second one, along with the skull I found a piece of cedar wood, the remains of what appeared to have been some sort of ornament, but too much decayed to make anything out of it. The third one I found in every case to be the same as the others. Before I say anything of the stone cairns, I must explain their mode of construction a little better, in order that Mr McKay and others interested in the subject may understand them. First, a circle was formed, wider or narrower, according to the wish of the friends or rank of the deceased, immediately within this circle were placed on end long stones in imitation of pillars, the vegetable mould, or black earth having been all cleared away previously, within this circle, each pillar being about 5 feet apart. Within the outer circle was an inner one, seven feet in diameter, leaving a space two feet wide all round the inner circle. On this space were strewn bits of burnt wood; within this inner circle was a hole, six feet wide and 20 inches in depth, sloping inwards—this being the receptacle for the remains which were carefully gathered after cremation and covered up as described. This receptacle was then filled up with large stones until it assumed the shape of a cone (as in cairn No. 1) seven feet in diameter and five in height from the bottom of the receptacle. Afterwards all was carefully covered up with earth forming a cairn five feet in height and twenty-four paces in circumference, considerable earth having crumbled down beyond the outer circle since first erected.

JAMES DEANS.

Victoria, Dec 20, 1871.

RAFFLE AT RICHARDSON'S.—At Victoria Hotel this evening Mr Geo Richardson will open his annual collection of good things for the holidays—sucking pigs, turkeys, chickens, geese and rabbits. Here is a chance to secure the wherewithal for a Christmas dinner for 50 cents.

THE INTERNATIONAL.—Mr T Chadwick having renovated the International Hotel removed thither yesterday. The establishment is one of the neatest and the host one of the most obliging in the city.

NEW YEAR'S BALL.—The tickets for Mrs Lange's Ball on New Year's night are selling rapidly. As a limited number only will be sold early application should be made.

DON'T FORGET the Raffle at the Merchant's Exchange, Odd Fellow's Hall, to-morrow evening.

## The Kootenay Election.

GENERAL NEWS.

From Dr Chisholm, who left Wild Horse Creek on the 27th of November and came down by way of Oregon, we learn that the polling took place on Wild Horse creek on the 24th November, for two members to represent the District in the local House.

There were three candidates in the field, viz, Messrs Milby, Mara and Todd. Mr Mara received nearly all the votes cast and the others had ten each. A messenger was dispatched from Kootenay to Big Bend, but could not have reached there in time to hold the 24th as Dr Chisholm met him on the 23d, *one day out* from Kootenay! John Work, the Government Messenger, left Wild Horse Creek with a mail on the 17th November to comr Victoria via Hope.

Perry Creek turned out very well last season.

Moberly's party of engineers have surveyed the country from the Columbia River to the summit of Howse's Pass in the Rocky Mountains and found it quite practicable for a railroad. The party have gone into winter quarters. Mr Moberly had been down to the Saskatchewan and found the country very favorable. Mr Moberly is expected to arrive at Victoria shortly via Big Bend. He will visit Mohun's party at Eagle Pass.

## Departure of H. Nelson, Esq, M P.

H Nelson Esq, M P, elect for New Westminster, sails today for Ottawa. Mr Nelson landed in British Columbia early in 1858, and has since been prominently identified with the productive and industrial interests of the Province. Elected to the last session of the Legislative Council he distinguished himself by his warm and able advocacy of the great principles of Confederation and Responsible Government. Mr Nelson is a staunch friend of the present Canadian Ministry, and goes pledged to support it in its great mission of consolidating the Empire from ocean to ocean. British Columbia will have no more able or influential member at Ottawa than Mr Nelson.

NOTICE.—Mrs Lange wishes to inform her Class members and Patrons that her New Year's Ball will certainly come off on the 1st of January, in the Royal Exchange Hall *and no other day*, and would caution her Patrons not to listen to anyone of the many malicious reports concerning her Class and its members which originate, and are spread about, by persons who were informed that their presence in her Class would not be desirable. It will not surprise anybody that such individuals should seek revenge by trying to hurt a respectable institution.—MRS LANGE. *

LONDON HOUSE, ANNUAL BROCHURE.—The Almanac of Turner, Beeton & Tunstall for 1872, came to hand per Pacific. It contains besides a Calendar, a beautiful and correct view of Esquimalt Harbor, the proposed terminus of the Canadian Pacific Railway, with a part of the Flying Squadron riding at anchor there. It has a map showing the proposed line of railway from Halifax to Esquimalt and a history of the New Dominion, by Francis Young Esq. Taken in every way, the number for 1872 is far ahead of any previous issue.

STAFFORD & HICKIN'S.—Have you been to Stafford & Hickin's? No? Then go! And "Stand not on the order of your going, but —go at once." There you will see the finest lot of Island-fed Beef, Mutton, Lamb and Pork flanked by tender sucking pigs, that your eyes have beheld since you left Merrie England. Last night the shop was visited by hundreds and the exhibition will be continued to-day, this evening and to-morrow. *

THE BLACK DIAMOND.—We are glad to hear from Capt Rudlin that there is a good prospect of getting the wrecked schooner Black Diamond off. The bulwarks are stove, but the hull is sound and the masts are still standing.

WE were favored with a call yesterday from Waterman Smith, Esq, of the Manchester, New Hampshire, Print Works. Mr Smith is on a trip of pleasure and observation to this part of the Continent.

PUGET SOUND ITEMS.—The Pacific Tribune announces a second lecture by Mr W K Ball for Wednesday evening.....The steamer Eliza Anderson is being got ready for Spring business.....Snow has fallen heavily at Olympia

HOLIDAY MEATS.—There is no handsomer display in the city than that of Thomas Eastman, corner of Store and Johnson streets. The meats are all of the finest description, selected with care and skill. The market is worth looking at.

FAMILY MARKET.—Give Ex-Mayor Harris a call at the Family Market. He has a splended assortment of Christmas Meats on hand, and is deserving of patronage for "auld lang syne."

THE PACIFIC will sail at 8 this morning for San Francisco. Among the passengers booked are Mr H Nelson, M. P., Mr R F Pickett, Mr I Oppenheimer, Mr James Richardson (Geologist) Mr J F Gerald, Mr P Dunlevy, Mr D Smith, J J Ams, F Bissonette, S May.

DEATH AT NEW WESTMINSTER.—Capt J O Smith, late of the Upper Fraser steamboat Victoria, and for many years a pilot on the Lower Fraser, died at New Westminster on Monday. Deceased was a native of New Brunswick.

BEST FIRE PROTECTION.—The Phœnix Insurance Company, through Mr Thomas C Nuttall, their Victoria agent, have, we learn, promptly paid the amount due on Mr Justice Crease's residence, swept away by the fire of the 6th inst.

BOSCO.—This gentleman was unable to procure a hall at Port Townsend in time to perform and return to Victoria yesterday. He will, however, call on the citizens of Victoria before finally leaving for San Francisco.

THE steamer North Pacific arrived from the Sound yesterday at 2:15 o'clock bringing about 40 passengers and a quantity of live stock. She will return today at 10 30 a m.

"GOOSEY, GOOSEY, GANDER!"—Grand raffle for geese at the Mountaineer Saloon to-morrow evening.

AT THE BROWN JUG to-morrow night there will be a grand raffle for poultry, a gold watch, and a valuable music box.

H.M.S. ZEALOUS will sail from San Francisco to-morrow for Mazatlan. The ship's company will therefore spend their Christmas at sea.

SENT UP. — A Theakstone was yesterday committed for trial at the next Assizes on a charge of embezzlement.

CORRECTION.—In our leading article of yesterday speaking of the rate of passage to San Francisco read *ten* dollars instead of *two*.

## Defeat of the Ontario Ministry.

The John Sandfield Macdonald Ministry of Ontario has been defeated by a majority of one vote. With this narrow majority the Grits cannot carry on the Governments, and unless they can form a powerful coalition there must be a dissolution.

THE steamer Enterprise will not sail for New Westminster again until Thursday next.

## Dominion Mail Summary,

An Ottawa contemporary intimates that the K C M G decoration is about to be bestowed upon the Hon Messrs Tilley, Howe and Langevin, each and all of whom our contemporary holds to be eminently deserving of the honor.

Intelligence had been received at Ottawa, of the serious illness of Lieutenant Governor Archibald, of Manitoba.

Mr A G Jones, M P., has been appointed a delegate to Nova Scotia at the approaching meeting of the National Board of Trade of the United States, at St Louis.

The Government of Nova Scotia have voted ten thousand dollars from the Provincial chest towards the relief of Chicago sufferers.

The Hon Col Gray M P, has in press a work on Canadian Parliamentary History. The Hon gentleman is regarded as well fitted for the task he has undertaken and the appearance of the book is anticipated with no little interest.

A Fort Garry dispatch of the 24th Nov., says—The telegraph line from here was opened today. This is the second dispatch transmitted, the Lieut-Governor's being the first. The Troops arrived on Saturday, they are generally in good spirits, though somewhat jaded. They encountered ice on Leon River and Lake of the Woods which gave them considerable trouble.

In the Quebec Legislature, on the 7th inst., Mr Joly, leader of the opposition, moved a resolution of want of confidence in the Provincial Government. The immediate occasion of the resolution was an item in the estimates of $114 000 for the Beaufort Asylum, and the chief cause of complaint was that the Executive had concluded a ten year's contract with the proprietors of that institution, involving a million and a quarter of public money and that this had been done just twelve days before the meeting of the Legislature. After a lengthy discussion a vote was taken, when the Government was sustained by 35 to 15.

The Ontario Legislature met on the 17th and proceeded to the election of Speaker. Mr R W Scott of Ottawa, was the Government candidate, and was duty nominated by the Premier. Mr Blake, leader of the Opposition, called upon the Clerk to cause the retirement of such members present as had been unseated by the Courts, before the vote was taken. The clerk replied, in effect, that the Judge's certificates could only come before the House in the regular order of returns, and that, as there could be no House until after the election of a Speaker, he considered that the proper time had not arrived for producing or acting upon these certificates. The Attorney General took the same view, and the yeas and nays were given and Mr Scott, being declared elected, was conducted to the Speaker's chair amid cheering from the Government benches. The Government cause was considered to have been strengthened by that first brush. The Government would meet the new House with a surplus of about four millions in the treasury.

## DELAYED DISPATCHES.

### Canada.

DEFEAT OF THE ONTARIO MINISTRY!

TORONTO, Dec 15—In the House to-night after a warm discussion a motion of want of confidence in the Government was passed by a majority of one, when the House immediately adjourned.

### California.

PETALUMA, Dec 16—Mr J N Stewart, a hardware merchant of this place, met with a shocking accident last night, which will undoubtedly prove fatal. Having been in attendance on his sick wife, he went to bed late, and while asleep, it is supposed, he got up and walked out of the window, mistaking it for the door, falling fifteen feet to the ground and breaking his back.

SACRAMENTO, Dec 16—A A Sargent was nominated in caucus for United States Senator, on Tuesday evening and will be elected in joint convention on the 19th inst.

It is believed that the vessel seen off Gold Bluff on the 8th inst bottom up, as reported by the Candidia to day, was the bark Live Yankee from Portland or the schr Amanda Adams from Humboldt — both missing so long as to be supposed lost. The sea was so rough that the Condordia was unable to go alongside to ascertain the name of the wreck.

ONTARIO.—The St John's *Telegraph* says:—If Ontario makes a far less magnificent appearance in the records of the first Dominion Census than was anticipated, she is not likely to appear relatively to greater advantage in the columns of the Dominion Census ten years hence. For some years to come we should not be surprised if Ontario were to advance at as low a rate as Quebec. She has room for millions, but she is likely to lose scores, if not hundreds of thousands of her present population. The indications are that there will soon be a perfect rush from Ontario to the fertile plains of the great North West. With a climate over a vast expanse better than that of Ontario, and a soil almost the richest in the world, the North West will deplete Ontario at a tremendous rate. It is doubtful whether the emigrants which Ontario will unquestionably draw from Europe will, for some years, more than fill the vacancies caused by the emigrants that will flock from her household to the fat valleys of the Red, the Assiniboine, and the Saskatchewan rivers. Such a result would scarcely be a just subject for lamentation. It would be greatly to the benefit of the Dominion were two hundred thousand of the best people of Ontario in our Western valleys this day, and we hope there will be at no distant period.

CHRISTMAS SPORT AND CHRISTMAS CHEER.—It has been arranged for a shooting match for Christmas geese and turkeys to be held at Parson's Bridge on Saturday next, the 23rd inst, commencing at 11 o'clock. Bowman's omnibus will convey passengers between the city and the Bridge. *

## Australia, New Zealand and Hawaii.

NEW SOUTH WALES.

The Intercolonial Conference concluded its labors in the early part of the month. The postal question was discussed, and a contract for two postal services with Europe was adopted and signed by the delegates from Victoria, New South Wales, Queensland, South Australia, and Tasmania. It was agreed that the above mentioned colonies should contribute towards the maintenance of two postal lines—the one between London and Sydney, by way of Suez, and the other between London and Melbourne, by way of San Francisco—a sum not exceeding £123,000 per annum, in proportions based on the relative population of such colonies. The mails are to be delivered both ways, and from London to Melbourne, and from Melbourne to London, by way of San Francisco are to call at Moreton Island and at Sydney. New Zealand is to be permitted to join in the agreement on condition that colony pays its proportion of the cost of the two services. The Government of the United States is to be invited to contribute towards the cost of the San Francisco line. The agreement is subject to the approval of the Colonial Legislatures.

The subject of telegraphic communication with Europe was considered. It was suggested that as soon as the overland line was completed, and its actual cost ascertained, the Governments represented at the Conference might negotiate for the purchase of the line with a view to their taking measures in common to reduce the proposed charge on telegrams to and from Europe at least fifty per cent. The delegates considered they had no authority to determine this question, and it was therefore postponed.

The Sydney *Empire* has, amongst its latest news from London by way of Suez, the following items.

Various rumors are afloat in commercial circles regarding the mail route to the Colonies, via San Francisco. It is said there is a probability of Mr Webb and Mr Hall being asked to sell their respective interests to an English company. Mr Webb is expected in London in a few weeks, and Mr Hall is sending an agent to represent him in the matter. If these proposed negotiations come to nothing, it is not probable that the Pacific Mail Company will enter the field as purchasers. There is, therefore, some hope that one really good and fast service will be established to the Australian Colonies, in lieu of the two existing lines.

By the arrival of the schooner Defiance, information was received that C Grut, a resident on the Island of Tanna, had been brutally murdered, and afterward eaten by the natives.

The yield of gold in most of the gold fields of the Colony is steadily on the increase.

VICTORIA.

In the Legislative Assembly, the Postal scheme as agreed upon by the Conference was adopted by a large majority.

The Postal Amendment Bill providing for reducing the Colonial postage on newspapers to one halfpenny, and the introduction of the post coin system at one penny has been uncermoniously dispesed of by the Council by being adjourned for six months.

The Railway Bill has been considered in Committee of the Council; the Engineer-in Chief gave evidence. He favors the present gauge, and considers that the saving contemplated on all the lines by having a narrow gauge will only amount to seventy thousand pounds.

QUEENSLAND.

Captain Rae and three men arrived at Rockhampton Oct 18th, in a whaleboat, forty seven days out. He reports the loss of the bark Corypheus nearly seven weeks ago, at Ailec, in Marshall's Archipelago; the vessel was becalmed and sucked ashore by the curren.

The elections are all over, and the new House of Assembly is now complete. The result gives the Government nineteen to thirteen of the anti-Ministerialists.

The Marquis of Normandy has expressed his opinion that it is the duty of the Queensland peasantry to instruct the Polynesians in religion. The Marquis added that the Polynesians were kidnapped for this trade.

SOUTH AUSTRALIA.

The Institute of the sisters of St Joseph in Adelaide has been broken up. The Sister guardian was excommunicated and the other sisters expelled.

TASMANIA.

Several letters from various well-known residents at the Black Boy and Fingal have been received, that gold-bearing reefs have been discovered on the mountain ranges, situated on the north side of the South Esk Valley.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony.

POINT LACE.—Probably the very choicest specimens of Lace ever seen in Victoria were received at London House by last steamer. The Brussels Point, Valenciennes, Honiton Point de Venise, Duchesse and other Lace goods are of exquisite design, and wonderful for fineness of quality. Also, received at same time, single dresses of Irish Poplins, in the new colors, including that now so popular in Europe—Salmon Pink. New Maltese Embroidery, Fur Ties, handsome Pelerines, Bretelles, &c. Eider Down Quilts and other beautiful goods for presents. *

REMEMBER THE FATE OF ABSALOM.—Fred Payne, Tonsorial Artist. Shaving 12½ cents Hair Cutting 25 cents, Shampooing 25 cents That Original Cheap Shaving Shop stands on the sunny side of Johnson street. *

GOING TO THE MAINLAND.—C A Noltemier has started business at Barkerville and is positively closing out his well selected stock of Boots and Shoes, Government street, Victoria. The goods are sold very low, at San Francisco prices. Also for sale, a Tilton & McFarland's safe, store fixtures, green shoeboxes, &c. *

CHRISTMAS! — Aside from the sacredness attached to this word are the most cheering old associations of 'Christmas Carol,' 'Christmas Rose,' and 'Christmas Box.' As if they were intended to enhance our joy and gratitude with the last bright gleam of sunshine in the declining year. It is with a degree of pleasure to ourselves that, from the care and attention bestowed in selecting from the Prince of Markets, seasonable and attractive mementoes, and especially Books, that the result shows such an array of sensible and elegant specimens both for juveniles and adults so creditable to modern Publishers and Bookbinders. T. N. HIBBEN & Co. *

AUSPICIOUS 1872. — Its present outline shrouded in mystery like an impenetrable Victoria fog, settled upon sea and land, with a sky above so clear and beautiful. Each consecutive year since 1858 has appeared in various forms, with the same pertinacity, the announcement that Pocket and Office Diaries, and Almanacs are ready for the Season.—T. N HIBBEN & Co 3m*

NO MORE SLOP-MADE CLOTHING.—A GOOD FIT GUARANTEED.—A McLEAN & Co have received by this steamer a very superior stock of real Cheviot Tweed Suits, Pants, Jackets, Overcoats, etc, made by a first-class private London tailor, who only makes specially to order. The superiority of these goods will satisfy all who may examine them. A McLean & Co spare neither trouble nor expense to supply their customers with the best quality and most fashionable styles of clothing. *

The cause of temperance finds one of its most insidious and dangerous foe in the many so-called "tonics" and "appetizers" made of cheap whiskey and refuse liquors, finished up to suit depraved appetites under the name of medicines. WALKER'S CALIFORNIA VINEGAR BITTERS are none of these. They are not a beverage, but is a genuine medicine, purely vegetabe preparation from California herbs by a regular physician. For all diseases of the stomach, liver, kidneys, bladder, skin and blood they are an infallible and unrivalled remedy.

### Sinking Fast

Pale, miserable, discouraged without relish for food, without energy enough for exertion, yet with no acute pain, or other specific indication of disease, how often do we see feeble invalids faded as it were out of life without any apparent cause. We say of them that they are "sinking fast," or "sinking gadually," as the case may be. But there is no good reason why they should sink at all. Persons in this dead-alive state simply want invigorating and vitalizing. Nature, in a state of torpor, demands help. Bring out the reserve of vitality in the system, brace the nerves, tone the stomach break the morbid trance of body and mind with a course of Hostetter's Stomach Bitters It can be done. It has been done in thousands of instances. The effect upon the opervative frame is electric. Never give up however languid and broken down. Remember that for the exhausted and debilitated, or desponding this powerful vegetable resorative is a genuine elixir. It is not a mere stimulant that provokes a transient flash of vigor in the system, and then leaves it in a more depressed condition than before. It removes the causes of debility by altering the secretions, and regulating the action of the internal organs, as well as re-enforcing them. It is a particularly valuable medicine at this season, because it is an antidote to the malaria which produces intermittent fever, bilious colic, and other disorders of the bowels pervalent in the fall,

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits. *

### Card of Thanks to Dr Chong.

AFTER BEING TREATED FIVE MONTHS by a white doctor, and spending nearly $300, I was worse than when I first went to him. I had quite despaired of being relieved when I read Dr Chong's Card in THE COLONIST. I placed myself under his care and in NINE DAYS I was a well man. I write this card to discharge a debt of gratitude I owe to Dr Chong, whose charges, I may also say, was reasonable. My complaint was neuralgia. WILLIAM McCORMICK.

Dominion Plantation.

Come ye citizens and strangers,
Miners, Sailors and Western Rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you,
Just the goods he has to sell you.
Mind ye now he is'nt joking,
If you are fond of Chewing and Smoking,
Or if you are given to snuffing
What he keeps does not need puffing.
He has brands, will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion,"
He has stock and his opinion,
Is that none can suit you better,
They will please you to the letter.
His Cigars, just from "Havana,"
Smoke in the most lovely manner;
Meerchaum Pipes of style and fashion,
Just to suit each taste and passion.
And it is in candor stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go.
Big Lick, Big Cut, Wind Sap, also.
All the Fine Cut brands for chewing,
That your teeth will never ruin;
Pipes to suit the inveterate smoker,
Cards for playing Sinch or Poker.
Pipes of brier and stems of cherry,
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping,
At the "Adelphi Corner" drop in;
Campbell you'll find at that location,
Ready to give you information.
Or to see you well provided,
With what is by all decided
The smoker's or the chewer's glory,
The best and cheapest in Victoria.

PROVINCE OF BRITISH COLUMBIA.

VICTORIA by the Grace of God, of the the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c.

To all to whom these presents shall come—GREETING.

A PROCLAMATION.

J F McCREIGHT, Attorney General } WHEREAS the Writs for the Election of Members to serve in the Legislative Assembly of British Columbia for the Electoral Districts of Yale and Lillooet, are directed to be returned on or before the 20th day of November instant; and the Writs for the Electoral Districts of Cariboo and Kootenay, are directed to be returned on or before the 26th day of December proximo.

And whereas it is doubtful, owing to the difficulty of communication at this season of the year and other causes, whether the Writs can be so returned by the said 20th instant and 26th proximo respectively.

And whereas it is expedient to extend the time for the return of the said Writs for the said Electoral Districts of Yale, Lillooet, Cariboo, and Kootenay.

And whereas by Section 59 of the "Election Registation Act, 1871," the Governor in Council is empowered to cause to be adopted such measures as may be necessary for removing any obstacle, or the doing of, or omission to do, any act of a technical or formal nature, by which, or by want of which the due course of an Election may be impeded.

NOW, KNOW YE, that for the purpose of giving the Returning Officers of the Electoral Districts of Yale, Lillooet, Kootenay and Cariboo, further time to return the said Writs, the Governor in Council has extended the time for the return of the said Writs for the Electoral Districts of Yale, Lillooet, Cariboo and Kootenay; and that the Writs for the Electoral Districts of Yale and Lillooet shall be returned on or before the 20th day of December, proximo; and the Writs for the Electoral Districts of Cariboo and Kootenay shall be returned on or before the 26th day of January, A D 1872; and the Returning Officers are to govern themselves accordingly.

IN TESTIMONY WHEREOF, we have caused these Our Letters to be made Patent, and the Public Seal of Our said Province of British Columbia to be hereunto attached; Witness, the Honorable JOSEPH WILLIAM TRUTCH, Lieutenant Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this Twentieth day of November, in the year of Our Lord one thousand eight hundred and seventy-one, and in the thirty-fifth year of Our Reign.

That was ever introduced in the Materia Medica. The UNK WEED REMEDY, as prepared by us, in consequence of the existing bitter principle, possesses the necessary virtue of being a

**Powerful Tonic.**

Promoting the Appetite and Invigorating the whole Digestive Apparatus, thus building up and strengthening the system, while at the same time the volatile principle being absorbed in the blood, acts specifically on the Rheumatic Poison, removing it from the circulation and system

There are a few remedies known to the Medical Profession which will remove the Rheumatic Poison from the blood, but whose action is so powerful in depressing the system of the already enfeebled rheumatic patient, that their use has to be abandoned before specific effects are obtainable, hence the want of success in treating this prevalent and in consequence heretofore incurable disease

Unlike these Medicines, already known, the UNK WEED REMEDY, though producing as powerful and as active effects on the blood and system in removing the Rheumatic Poison, also possesses a strong TONIC and recuperating element which admits of its continued use even by the most delicate and debilitated. Thus we have the combination for the first time of these two necessary elements in one remedy, which accounts for its superior and never failing curative effects in

### PUBLIC NOTICE,

ESQUIMALT GRAVING DOCK.

THE GOVERNMENT OF BRITISH COLUMBIA invite tenders to be sent in to the Lands and Works Office, Victoria, up to noon of the 20th March, 1872, for the construction of a Graving Dock at Esquimalt, British Columbia, under the guarantee provided in twelfth section of the Terms of Union of this Province with the Dominion of Canada, which section is in the following words:

The Dominion Government shall guarantee the interest for ten years from the date of the completion of the work at the rate of five per cent per annum on such sum not exceeding £100,000 sterling, as may be required for the construction of a first class Graving Dock at Esquimalt.

The dock is to be of a clear length of not less than 450 feet, a clear breadth of 90 feet at top and 50 feet at bottom, and affording a depth of water at ordinary high tide of not less than 24 feet on the sill, and to be substantially built upon a site to be selected and provided by the party or parties tendering, subject to the approval of the Government. Parties tendering are required to specify the time within which they propose to complete the Dock.

Tenders are to be sealed, superscribed "Tenders for Esquimalt Graving Dock," and addressed to the Chief Commissioner of Lands and Works, Victoria, British Columbia, and accompanied by plans and drawings showing the exact dimensions of the Dock proposed to be built, the mode of construction and materials to be used therein.

Parties desirous of tendering, but who may decline to do so under the guarantee above named as insufficient, are invited to tender on the basis of such supplemental guarantee by the Provincial Government, or other financial inducement as they may suggest

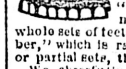
### C. FRANCIS BARNARD, M. D.

*SURGEON DENTIST.*



DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets, the best vulcanites of the last 25 years.

We cheerfully add Dr. B's Card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Pound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

See his case of Specimen Work in Mr Roberts' window first store north of London House.

OFFICE AND RESIDENCE—Douglas Street, between Dr. Powell's premises and Wilson's Tea Store, Business hours from 8 a m till 5 p m.

### ELECTRICITY IS LIFE.

### PULVERMACHER'S

PATENT GALVANIC

**CHAIN BANDS, BELTS**

AND

**Pocket Batteries.**

THESE REMARKABLE AND HIGHLY improved inventions render Electricity perfectly self-applicable, and extremely efficacious in a mild continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a true fountain of health and vigor, speedily soothing agonizing pains, re-animating torpid limbs, reviving the sluggish functions of life and imparting renewed energy and vitality to constitutions enfeebled by whatever cause. Medicines and their deleterious consequences are thus entirely dispensed with; The daily increasing number of cures effected by PULVERMACHER'S MEDICO-GALVANIC SYSTEM is so extensive and varied, that it forcibly points to this invention as the embryo of the universal remedy.

N. B—The following testimony from the ELITE of the English medical faculty has been received:

"We, the undersigned, have much pleasure in testifying that Mr J L PULVERMACHER's recent improvements in Voltaic Batteries and Galvanic Appliances for Medical Purposes, are of great importance to Scientific Medicines and that he is entitled to the consideration and support of everyone disposed to further the advancement of real and useful progress.

Dated this 9th day of March, 1866

Sir Charles Locock, Bart., M.D., F.R.C.P.
Sir Henry Holland, Bart., M.D., F.R.S.
Sir Wm. Ferguson, Bart. F.R.S.
Edward H. Sieveking, M.D., M.R.C.S.
Sir J. Ranald Martin, F.R.G.S."

PULVERMACHER'S SYSTEM is also approved of by an official report of the Academie de Medicine, Paris; Royal College of Physicians, London; and the Imperial Faculty, Vienna, and its curative virtues are confirmed by thousands of private testimonials of cures effected. (See pamphlet, gratis).

These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative progress, to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor to mankind, the late illustrious electrician, MICHAEL FARADAY

PULVERMACHER'S MEDICO-GALVANIC CHAIN are exceedingly effective without the aid of medicine restriction of diet, or the least derangement of the patient's habits and daily occupations. In the following maladies:—

| | | |
|---|---|---|
| Rheumatism, | Tic Doloreux, | Sluggish circulation, |
| Gout, | Indigestion, | Urinary Disorder |
| Sciatica, | Deafness, | Paralysis, |
| Lumbago, | Spasms, | Epilepsy, |
| Neuralgia, | Female complaint | Nervous Debility |
| Head & Toothache | Constipation, | Functional Disorders, &c |
| Liver Complaints, | Cramp, | |

The effects of the application of Pulvermacher's Chains in any of the above disorders is immediately perceptible—the relief of pain instantaneous.

### PRICE LIST OF PULVERMACHER'S CHAIN BANDS AND BATTERIES.

Chain Band for Nervous Deafness, Head, Tooth Pecoache, and Noises in the Head, 21s. to 30s.

B. Chain Bands for Loss of Voice and other affections of the Throat, 10s. 6d. to 21s.

S. Chain Bands for Sciatica; Rheumatic, Neuralgic and Gouty Pains, Local Paralysis, Cramp, etc., 18s. to 20s. and 40s.

B. Chain Bands for Lumbago, Indigestion, Liver, Chest and Functional Disorders, etc., (worn as a belt) 22s. to 40s. and 55s.

B, Chain Bands for Writer's Cramp, Trembling, Nervousness, etc. 21s. 30s. and 40s.

B. Combined Chain Band for Central Paralysis, Epilepsy, General Debility Functional Disorders, etc., 30s. to 50s.

CAUTION A Perpetual Injunction in Chancery, dated 18th August 1869, was granted to J L Pulvermacher against Alfred Barrows, alias C D Hammond, alias Henry James alias C D Rapsley, his assistants, agents and servants restraining the said person or persons under penalty of £5000 from deceitfully advertising Belts, &c., exclusively representing them as electric. This decree is printed in extenso in Pulvermacher's Pamphlet of recent Testimonials and Medical Reports of cures, containing likewise numerous extracts from many standard and scientific works, viz Dr Copcira's "Materia Medica," Dr Turner's "Practice of Medicine," Dr Handfield Jones "On Nervous and Functional Disoders, etc." This pamphlet may be had at the office of this Paper, or of J L Pulvermacher's Galvanic Establishment, 200 Regent St., London.
